March 9, 1982

Mr. Roy J. Schomberg
Fort Wayne, Indiana 46802

Dear Councilman Schomberg:

During the past several months considerable dialogue has occurred concerning the Safety Coordinator position. Police organizations and individual police officers have voiced opposition to retaining the position, while a City Council study committee conducted a broad-based review of the position and concluded it should be abolished.

Mayor Winfield Moses has actively contended the Safety Coordinator position should be retained. Many statistical arguments have been presented for retention of the position and during the past week the Mayor issued a mass-mailed letter requesting recipients to contact specific City Council members and express support for the position.

The main theme of the letter cited improved police performance and more stringent discipline as a result of Fire Chief Tony Meyers functioning in the Safety Coordinator position. The letter also portrayed police union leaders as being opposed to improved productivity and stringent discipline and stated they wished to return to the "old, easy, less productive" way of doing things.

At this juncture, we feel compelled to illuminate on the ethics of those persons promoting productivity, discipline and public safety in this matter.

In order to do this, we must make reference to the incident occurring on March 24, 1981. It had been our intention to allow the incident to die a quiet death. As a result of our involvement in the above-mentioned incident, we have been chastised not only by members of this Council but also by members of the media and general citizenry. We are aware of the ethical implications involved and, in retrospect, consider the action to have been ill-advised, but at the time we considered the undertaking to be based on essential labor objectives. As it turns out, we feel we were misled in our judgement and owe City Council and the citizens of Fort Wayne a public apology. However, we have up to this time accepted total responsibility for the incident -- when in fact the responsibility should be shared.

On March 24, 1981 we were in attendance at a meeting which took place in the Mayor's office complex. In addition to the signatories to this letter, also in attendance were City Controller, Frank Heyman, Safety Coordinator Tony Meyers, Mayoral Aide Mark Angel, FOP bargaining committee members Lieutenant Jerry Biddle and Sergeants Don Stedje and Robert Putt.

Mr. Roy J. Schomberg
March 9, 1982
Page Two

During the course of the meeting the possibility of City Council refusing to approve the arbitrated wage settlement was discussed. In the event of Council's failure to ratify, Union officials at this meeting, and in the presence of the above-named City officials, decided upon a job action. The City officials at this meeting assured complete amnesty from discipline or loss of wages should this job action take place. They also indicated that for their reasons, unknown to us, that they considered a job action advantageous.

Many times during the past year we have considered revealing the details of this incident, but out of fear of retribution have been hesitant to do so. With extreme reservation and out of a sense of community responsibility and only because of the gravity of issues surrounding the Safety Coordinator position, do we reveal the past incident at this time.

We realize that our statements and motives behind them will be questioned. In order to substantiate the truth of our statements, we will submit to a council-appointed lie detector test, although contractually we are not required to do so. We also challenge the other named principals to this incident to do likewise.

We have chosen to present this to City Council to be dealt with at their discretion, rather than resorting to a public revelation that could be embarrassing to the Administration.

Dear Council Person:

This petition bears the signatures of 235 officers out of a possible complement of 284 excluding the new officers. That is 82.75% of the police force.

We feel that Chief Meyers should not be retained as Safety coordinator for the following reasons:

- 1) No prior experience in police administration.
- 2) Due to his status as a firefighter he has not gained the trust and cooperation of the police department as evidenced by this petition.
- 3) Conflict with other State and Federal police agencies due to his status as a firefighter.
- 4) There is no provision for this position in Indiana law.
- 5) The police department has lost Federal grants in the past and envisions difficulty is gaining future grants due to Chief Meyers status as a firefighter.
- 6) Due to the management changes in the police department Chief Meyers function is no longer needed.
- 7) The position is not only detrimental to the police department but the fire department as well because it detracts from his ability to manage the fire department.

We urge you to eliminate the position of Safety Coordinator for the reasons stated herein and because retention will have a negative impact on individual officers and the police and fire departments as a whole.
